

## Easy to apply color treatment

- Protective cream: protect the contour of the scalp.
- Practical cape: dye your hair without staining your clothes.
- Disposable gloves: protect your hands during application.

- Insert the Nutrifix bottle into the hole on the perforated back of the box.
- Leave on for 35 minutes – product does not drip
- With the included conditioner shampoo any coloring mixture residue is eliminated, in just 2 minutes time.

\*The absence of these substances does not exclude the risk of allergic reactions. Always carry out a sensitivity test 48 hours before applying.

## The force of plant extracts

BioKap<sup>®</sup> Nutricolor Delicato hair dyes nourish and repair hair while dyeing it, giving a warm, shiny and natural colour.

They are enriched with TRICOREPAIR complex and the precious bio ARGAN OIL, known also as “Desert Gold” for its highly valued cosmetic properties.

TRICOREPAIR complex contains:

Rice proteins with a restructuring and regenerating action.

Willow by-product that protects hair and helps to prolong color over time.

Fruit lipophilic acids that take care of the scalp during the coloring application and make it suitable even for the most delicate skins.

With its hydrating, emollient and protective action, Argan oil nourishes hair, making it softer and shinier.
